## „THE DOORS EXPERIENCE“

(short version)

**THE DOORS EXPERIENCE** is a project run by true Austrian DOORS fans and musicians. To bear in remembrance Jim Morrison and the legendary DOORS the band bring the original DOORS' live sound back on stage in The Doors' original four piece line-up.

Set up in spring 2001 **THE DOORS EXPERIENCE** meanwhile regularly play several

European countries to great success. Both their high quality DOORS live sound and stirring show attract more and more fans. And due to **Frontman Jason Boiler's** similarity to Jim Morrison concerning his look, voice and performance they create an illusion which takes the audience on a trip back to the late 60s and early 70s.

The band use classic 1960s gear as far as possible or at least original 1960s sounds to recreate the Doors' legendary live sound.

### Line-up:

<b>Jason Boiler</b>	<i>lead vocals</i>
<b>Klaus Bergmaier</b>	<i>organ, piano, bass keyboard, backing vocals</i>
<b>René Galik</b>	<i>guitar</i>
<b>Gerhard Tscherwizek</b>	<i>drums</i>

Even decades after Jim Morrison's untimely death the DOORS still have enthusiastic fans all over the globe. They represent a very special music and life style. Till now people of different age groups and cultures identify with this unique style. That's why **THE DOORS EXPERIENCE** cultivate and keep alive the original DOORS sound, acting a bit like Jim's international ambassadors. DOORS music simply outlasts all musical trends, it never gets out of style, just stays ageless and independent.
